

WiFi Multiroom speaker

ALBRECHT

Max-Sound 900 L

Max-Sound 900 S

- ▶ WiFi multi-room speaker
- ▶ Spotify Connect
- ▶ Enjoy HiFi music wireless
- ▶ Control via smartphone app
- ▶ Music in multiple rooms simultaneously
- ▶ Equalizer

The new ALBRECHT Audio WiFi speakers Max-Sound 900 L and 900 S play music from the home network, Internet or Spotify. All functions can be easily controlled via „Undok App“ on your smartphone or tablet.

The network setup takes place via the intuitive App menu. If you have multiple speakers with WiFi reception in your home, these can be connected as a group via the multi-room function.

Music can thus be played in-sync via the WiFi speakers in multiple locations throughout your home or in a large space such as the living room.

Alternatively, an individual music selection for different rooms can be made via the app. Thus, for example, an audio book can be played for children in their bedroom, while at the same time parents control a playlist for their own musical enjoyment in the living room, bedroom, or the kitchen.

WiFi

„Undok App“

The top row of images represents the centralisation of 3 speakers to a group.
Centralised speakers play selected tracks synchronously.
