

**> WP-24****Hands-free control  
for CB radios**

The WP-24 hands-free control allows you to operate the Albrecht AE 6490 CT or AE 6491 CT without taking your hands off the steering wheel.

The remote control is installed very easily on the steering wheel and has an operation distance of up to 7 meters.

Install the external microphone close to the driver (for example sun visor) and connect the receiver to your CB radio and you are ready to go.

The microphone gain can be adjusted infinitely variable to get the best results. You can also select the channels and adjust the ASQ through the remote control.

Legislation is currently considering to make hands-free communication inside vehicles mandatory by the year 2020 due to safety reasons. Albrecht now already offers a solution with the AE6490/91 CT and WP-24 combination.

- ▶ Channel selection and ASQ on remote control
- ▶ Microphone gain adjustable
- ▶ LED status display

**Delivery content:** WP-24 remote control inkl. battery, receiver, external microphone, steering wheel mounting, screws

▶ **Art.Nr. 41980**
