MIDLAND BT NEXT CONFERENCE

Wireless connection from bike to bike or group communication up to 6 people

Groups up to six people can stay in contact through the classic intercom over big distances

► Connection to GPS navigation systems and mobile phones

Connectivity to your Bluetooth devices like mobile phone or GPS navigation system. The user stays well informed through FM radio with RDS.

► Conference Mode with 4 people simultaneously

Intercom conference allows you to communicate with up to 4 BT Next Conference units simultaneously.

NEW!

► Group communication with up to 6 people and through 1.6km distance

Up to 6 bikers can be connected and stay in contact through the MIDLAND BT Next Conference in the classic "one to one" intercom mode.

► Advanced FM radio with RDS/AF (alternative frequency search)

Stay always well informed about the traffic situation on your route. Up to six radio stations can be saved.

► Voice announcement of the status/chosen function

You can control several functions like the intercom, incoming calls or dialing through voice control. A voice announcement informs you about the chosen function/action.

► Software updates and settings through the USB port
