

Midland XTC-200

HD Action Camera

To immortalize even "impossible feats"

Cod. C985

XTC-200 Action Camera is a wearable camera 720p HD that can record and immortalize your most important and enjoyable moments, such as your sporting feats!

You can take it anywhere, just mount it on the handlebar of your bike, motorbike or on your helmet and capture every small or great adventure, at sea or in the mountains, etc.

The **XTC-200** has been designed for the demands of extreme sports or any situation where you want to put yourself in the action. With wide angles lens, it utilizes a single slide switch to power on/off and record your videos.

The **Action Camera XTC-200** is easy to use hands-free 720p HD video and is perfect to capture action in your car, from your motorcycle helmet or during winter sports like skiing or snowboarding. Thanks to the supports and brackets provided, it can be mounted on bike helmets, ski goggles, motorbike crash helmets, scooter and bike handlebars, without creating any obstacle during the various activities due to its extremely limited dimensions and weight.

With its variety of mounting kits, the **XTC-200** lets you shoot and share all the activities you love.

Instant commands reduce distraction to a minimum, an added value for this small concentrate of technology conceived for all those sporting activities in which fluidity and freedom of movement are in fact necessary conditions.
