### Features

- > Designed with clear, powerful output using Neodymium magnet
- > Made with the most reliable and cost efficient 100 watt compression driver on the market
- > Finished in black powder coat baked on epoxy
- > Compression driver is the lightest (56% less) and lowest profile (31% less) of the conventional alnico based compression drivers
- > Perfect choice for tight fitting locations where space or weight is a premium consideration
- > The 11 ohm, 2.75" high temperature voice coil is oven baked at a high temperature and sealed with a special coating to withstand extreme temperatures and environmental conditions. Voice coil is further protected with a special magnetic cooling liquid that fills the voice gap and provides a thermal path. Produces 10 - 15% more magnetic flux density in the voice coil gap
