Solutions to meet your needs

We know not two customers are alike. That's why you can choose from our range of standard solutions, or customised dishes and packaging upon request.

We can meet most special requests for:

- Sizes
- Colours
- Nuts and bolts
- Customised packaging and/or logo

Please contact us to discuss how we can benefit your business.

**Bulk single pack = 150, 180, 200 or 220 dishes per package. Accessories are packaged in individual boxes to match each dish.*

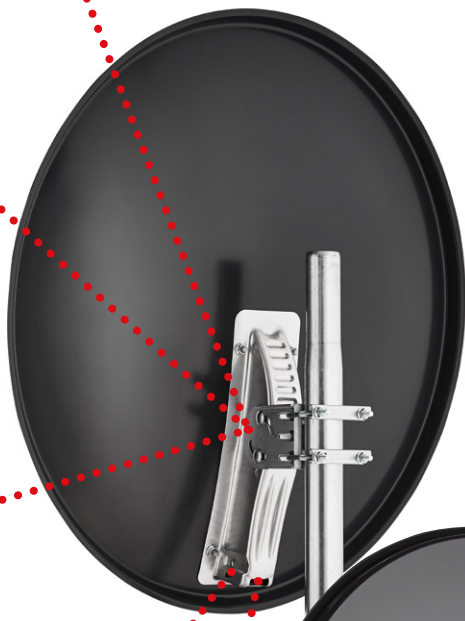

TRIAX – Your reliable partner

Our comprehensive service and support is backed up by 2 years' corrosion and 5 years' functionality warranty.

The difference is clear

| Unrivalled build quality • Outstanding performance • Easy installation

Sturdy, galvanised steel mast brackets and reflectors ensure extra stability and weather protection. Accurate setting scales allow for perfect dish adjustment.

To ensure the feed arm is in the right position, it is secured with a bolt with additional nut on the back of the dish.

Unique cable protection: the coaxial cable runs through the feed-arm to the back of the dish.

On all dishes the arm goes through the reflector to secure a stable mounting. A bolt with additional nut, placed on the back of the dish to secure the feed-arm is in the right position.

Unrivalled build quality

- Hot-dip galvanised steel or long lasting aluminium for extra corrosion protection
- TRIAX's unique cable protection system
- Every part, every accessory is weatherproofed

Outstanding performance

- High gain for an exceptional signal

Quick and easy installation

- One-click mounting system
- Self-locking screw & nuts
- Fits the full range of TRIAX LNBS

The UV-resistant plastic Ø40 mm LNB holder is quickly clicked on to the feed arm.

Aluminium LNB holder – standard on Alu dishes, optional extra on steel dishes

TRIAX

Accessories

| Everything you need for the perfect installation

Optional brackets for the TD dish

Choose between:

- Aluminium LNB holder – optional extra on steel dishes
- 3° and 6° Duo-Block – for Ø40 mm LNBs. Perfect for reception from two satellite positions, e.g. Eutelsat (Hotbird) and ASTRA
- 3° to 10° Flexi-Block – adjustable for two Ø40 mm LNBs.
- 3° to 20° Multi-Block – adjustable for four LNBs – with min. 4° between the satellite positions with the right LNB.

DiSEqC™ switches & wall brackets

Need to connect more LNB units to your set-top box?

- DiSEqC™ switches for connection of 2 - 4 universal single LNB units to a set-top box.
- TRIAX can also supply a wide range of mounting brackets, to fulfil all your requirements for dish installation.

State of the art TRIAX LNB units

TRIAX Universal Ku-band LNBs meet the most critical demands in today's market. You are guaranteed extremely low noise figure in both high and low band - and excellent cross polarity isolation, build-in LTE filter, low power consumption.

Available as Single, Twin, Quad and Octo for 1, 2, 4 or 8 set top boxes and in Quattro version for multiswitches systems.

Others models available like Hi-gain, optical, wideband, dCSS, SCR and other specific models are available on request.
